

WAITING AND READING

In

MINNESOTA ARROWHEAD COUNCIL

Up North in Minnesota's Arrowhead Council area Legacy West Pioneers have found a unique way to put a book into a child's hands.

Bright red bookshelves are placed by Pioneers in office waiting areas at dentists and clinics. The books provide a distraction and entertainment at a stressful time.

Pioneers make regular visits to the bookshelves to rotate titles and organize the shelves and books. This project began in 2008 and over 70,000 books at 13 locations have been distributed since its inception.

And it's always okay when the child takes the book home to find out how the story ends!

HOORAY FOR READING
